

PROSCEND ADSL Series Received License From Ministry of Information Industry, PRC

-- Harnessing the Potential of Broadband --

Beijing, PRC – Oct. 01 , 2001

Proscend Communications, Inc., a professional supplier of broadband access product and an OEM manufacturer of Customer Premises Equipment (CPE), announces that its ADSL series, Bridge, Router and Router Pro, passed the ADSL loop test in Ministry of Information Industry of PRC today. This achievement will bring Proscend to launch the huge broadband market opportunities in China from now on. During the severe test with different DSLAM vendors from **Nokia, Alcatel, Zhongxing**, Proscend ADSL series performed a great efficiency in ADSL loop performance and data transfer speed. Proscend will provide the very cost-effective and feature-rich products to meet and support its partners to success in the market. For serving new or existing distributors, Proscend creates a Partnership Program for any potential partner in PRC. This program will be a major benefit to partners of Proscend.
